

RxCompare™

Walks the beneficiary or their caregiver through the entire process in logical, easy-to-follow steps.

A Unique Step-by-Step Guide to Make Informed Decisions About Medicare Part D Enrollment

Key Components

- Answers to key questions every beneficiary needs to know
- Assistance to help beneficiaries determine:
 - If they need to enroll in a Medicare prescription drug plan
 - Whether they can apply for extra help in paying for coverage
- Crucial information for dual eligible individuals
- Glossary of important terms
- **Drug Plan Worksheets** that work with Medicare's Prescription Drug Plan Finder or other sources to record key information about available plans
- **Drug Plan Comparison Chart** for side-by-side comparisons of the local coverage options to help choose the Part D plan that best meets the beneficiary's Rx needs. Easy-to-read, step-by-step instructions help users compare drug formularies, co-payments and limitations, pharmacy access, and more.

All in one tool that is easy-to-understand, easy-to-use and free!

RxCompare™ is especially useful for individuals with complicated medication regimens. A significant advantage of this pen-and-paper tool is that it allows beneficiaries and caregivers to gather information over time and use it in a variety of settings:

- **On-line** whether working on a home computer, a library, or at a site where volunteers are assisting beneficiaries in this process;
- **Telephone assistance** with 1-800-MEDICARE service representatives or Part D plan operators; and
- **Face-to-face assistance** with state and local SHIP counselors.

Soon to be available in a large print and Spanish-language versions.

MAPRx is a coalition of patient, family caregiver and health professional organizations committed to safeguarding the well-being of people with chronic diseases and disabilities under Medicare Prescription Drug Coverage.
